---

Misty and Frankie,

I'm referring the attached inspection for enforcement. The facility has since permanently closed the facility per 40CFR112 but this occurred after the inspection. I will be sending a separate email that shows photos of the closed facility. The inspection was predicated upon a prior reconnaissance and the documentation of SPCC deficiencies. The inspection resulted in a tentative ESA totaling \$2925.

Chris Ruhl

USEPA R6 Oil Team Leader

Federal On Scene Coordinator
